

experience preschool CURRICULUM™

Experience Preschool is a **research-based** curriculum that supports your child's rapidly growing curiosity. As your child participates in this **nationally recognized** program, she will:

- **Build friendship skills** and learn to how to express her feelings.
- Have access to specialized books, science tools, art materials, games and math manipulatives to encourage **problem-solving and creative thinking**.
- Engage in daily routines and activities that support brain development while also building the **self-regulation and attention span** needed for long-term school success.

HANDS-ON LEARNING THROUGH PLAY

Your child's teacher will use books, puppets, music, blocks, puzzles and manipulatives to inspire a love of learning. While your child plays, she will naturally build 72 foundational skills. These skills are interwoven within 7 developmental domains:

- **social-emotional**
- **physical**
- **language and literacy**
- **math**
- **science**
- **social studies**
- **creative development**

New Themes Every Month!

Every morning at Circle Time, your child's teacher will reveal the topic of the day. There are 20 topics related to the new thematic study every month. Throughout the day, she will investigate these topics through hands-on projects, art and music. We believe every child is an artist, engineer and tinkering genius. Get ready to see a lot of your child's hard work coming home and displayed on the walls in your school. We are excited to get to know your child's unique brilliance as we learn together, hand in hand.

Get ready
 for a year filled
 with curiosity
 and growth!

Individualized Play and Learning for Continued Growth

As your child develops, the Experience Preschool Curriculum helps the teacher individualize the experiences and increase the challenges so that your child is constantly learning at his unique pace. Your teacher will follow your child's progress with an embedded assessment tool.

Your child's teacher participates in monthly professional development and receives a new Experience Preschool teaching kit each month to ensure that your child benefits from the latest teaching methods and the highest quality tools for hands-on learning.

Your child's brain doubles in size during his first year of life and is at 90% of its adult size by age 5. Research has shown that the quality of a child's experiences in the first few years significantly shapes how their brains develop into adulthood.

Experience Preschool Curriculum is designed to support you and the teacher to embrace your child's natural sense of wonder and help him reach his unique potential as he discovers our diverse and beautiful world.
